

ART SAVES LIVES FOUNDATION

MISSION STATEMENT

Art Saves Lives Foundation (ASLF) is a cross-cultural exchange between youth in need and experienced practicing artists who seek to use their talents for positive change. This collaborative project will select renowned artists from around the world who use the arts to introduce participants to global and local traditions and empower them with the life skills necessary to effectively deal with the demands and challenges of everyday life. The program will also provide guidance for young artists with aspirations in pursuing a career in the arts.

WHAT YOUR SUPPORT MEANS:

- Giving students the opportunity to experience learning in a nurturing environment
- Reaching at risk children in our community
- Allows us to use art as a bridge to educate and empower children through creativity, engaging, developing, and reinforcing each child's imagination
- Provide aspiring young artists with the training, education, and guidance needed for successful pursuit of careers in the arts
